CASE PROFILE

When this client started with us they had been recently hacked and had a lot of spammy pages indexed on the site as well as blog pages that were not being indexed. We were able to fix the indexing issue and remove some of the spammy pages from being indexed. The pages that are now indexing helped this client out not only with traffic but also their rankings improved. We are continuing to grow their content focusing on Q&A type content to rank for additional variations of their keywords.
