Additional 4000 Users Visited The Website for Popular Hotel and Casino

ANALYTICS

CASE PROFILE

The client is a Colorado hotel and casino that was looking to increase hotel and gaming visits via both from a local and national level. Content was optimized and rewritten, along with improving domain authority and on-page elements added from interlinking to schema. In three months compared to the previous 3 months we saw an extra 4000 visitors land on the website that helped to increase their bottom-line.
