SEO PRODUCES OVER 100% INCREASE IN ORGANIC TRAFFIC

ANALYTICS

CASE PROFILE

Utilized SEO for organic placement and "natural" leads. This strategy involved a website redesign into WordPress from a custom PHP website to help better our efforts. Those efforts in strategy included content optimization, advanced interlinking strategies, keyword mapping to specific landing pages, Header Hierarchy and optimization, site speed improvements, meta/title improvements, alt attributes and building out a solid SEO foundation to help improve off page results from incoming links.
